

# Daily Standup Meeting

|                        |                                  |
|------------------------|----------------------------------|
| Project Name: EatMeOut | Group Name: SEEPP Solutions      |
| Sprint Number: 4       | Date and Time: 28/02/2025 9:30am |

## List of attendance:

- Name: Przemek Wasinski Attended? YES
- Name: Samy Wanas Attended? YES
- Name: Alex-Petrisor Bejenaru Attended? YES
- Name: Emanuel Vochitoiu Attended? YES
- Name: Edwart Lanovici Attended? YES

## Project Progress:

### Team Member (1): Przemek Wasinski:

1. What did you accomplish yesterday?  
Answer: Created a basic home page with basic features such as displaying restaurants and allowing the users to navigate the application
2. What will you do today?  
Answer: Create search functionality
3. What obstacles are impeding your progress?  
Answer: Making sure user's device can handle the application even with a slow internet connection.

### Team Member (2): Samy Wanas:

1. What did you accomplish yesterday?  
Answer: Collaborated with Przemek Wasinski to create a backend system that serves the frontend data from the database to display on the home page
2. What will you do today?  
Answer: Collaborate with Przemek Wasinski on finishing the home page.
3. What obstacles are impeding your progress?  
Answer: Making the application perform well no matter how powerful the user's device is.

**Team Member (3): Alex-Petrisor Bejenaru:**

1. What did you accomplish yesterday?  
Answer: Organised meeting time and informed all team members, adjusted meeting time to suit all team members and created a frontend for the web application.
2. What will you do today?  
Answer: Monitor the progress of our developers and help them reach their goals.
3. What obstacles are impeding your progress?  
Answer: Finding free time for meetings that fit in everyone's schedule

**Team Member (4): Emanuel Vochitoiu:**

1. What did you accomplish yesterday?  
Answer: Looked over and made sure developers are not falling behind
2. What will you do today?  
Answer: Monitor the progress of our developers and help them reach their goals.
3. What obstacles are impeding your progress?  
Answer: A big learning curve for all members.

**Team Member (5): Edwart Lanovici:**

1. What did you accomplish yesterday?  
Answer: Vigorously tested the home page features to ensure errors do not disrupt the functionality of the application
2. What will you do today?  
Answer: Create mock tests that I can use when the application is more feature rich.
3. What obstacles are impeding your progress?  
Answer: Learning new testing methods
