- Name: Emanuel Vochitoiu Attended? YES
- Name: Edwart Lanovici Attended? YES

Project Progress:

Team Member (1): Przemek Wasinski:

1. What did you accomplish yesterday?
Answer: Users can now favourite restaurants, unfavourite them and view them in the favourite's menu for easy access to their favourite restaurants.
2. What will you do today?
Answer: Create separate home pages for users and restaurant owners
3. What obstacles are impeding your progress?
Answer: Making sure user's device can handle the application even with a slow internet connection.

Team Member (2): Samy Wanas:

1. What did you accomplish yesterday?
Answer: Created a basket and checkout system which lets the user add or remove items from their basket and order them
2. What will you do today?
Answer: Create separate home pages for users and restaurant owners
3. What obstacles are impeding your progress?
Answer: Making the application perform well no matter how powerful the user's device is.

Team Member (3): Alex-Petrisor Bejenaru:

1. What did you accomplish yesterday?
Answer: Organised meeting time and informed all team members, adjusted meeting time to suit all team members and improved frontend.
2. What will you do today?
Answer: Monitor the progress of our developers and help them reach their goals.
3. What obstacles are impeding your progress?
Answer: Finding free time for meetings that fit in everyone's schedule

Team Member (4): Emanuel Vochitoiu:

1. What did you accomplish yesterday?
Answer: Looked over and made sure developers are not falling behind
2. What will you do today?
Answer: Monitor the progress of our developers and help them reach their goals.
3. What obstacles are impeding your progress?
Answer: A big learning curve for all members.

Team Member (5): Edwart Lanovici:

1. What did you accomplish yesterday?
Answer: Vigorously tested the home page features to ensure errors do not disrupt the functionality of the application
2. What will you do today?
Answer: Create mock tests that I can use when the application is more feature rich.
3. What obstacles are impeding your progress?
Answer: Learning new testing methods
