

# Daily Standup Meeting

Project Name: EatMeOut	Group Name: SEEPP Solutions
Sprint Number: 10	Date and Time: 12/04/2025 9:00am

## List of attendance:

- Name: Przemek Wasinski Attended? YES
- Name: Samy Wanas Attended? YES
- Name: Alex-Petrisor Bejenaru Attended? YES
- Name: Emanuel Vochitoiu Attended? YES
- Name: Edwart Lanovici Attended? YES

## Project Progress:

### Team Member (1): Przemek Wasinski:

1. What did you accomplish yesterday?  
Answer: Created settings page, I'm feeling lucky feature and finished off features such as ordering from restaurants
2. What will you do today?  
Answer: Check over requirements and make sure the project meets all the requirements.
3. What obstacles are impeding your progress?  
Answer: Making sure user's device can handle the application even with a slow internet connection.

### Team Member (2): Samy Wanas:

1. What did you accomplish yesterday?  
Answer: Created settings page, rating system and finished UI for restaurants so they can see today's revenue, customers and other statistics.
2. What will you do today?  
Answer: Check over requirements and make sure the project meets all the requirements.
3. What obstacles are impeding your progress?  
Answer: Making the application perform well no matter how powerful the user's device is.

**Team Member (3): Alex-Petrisor Bejenaru:**

1. What did you accomplish yesterday?

Answer: Organised meeting time and informed all team members, adjusted meeting time to suit all team members.

2. What will you do today?

Answer: Monitor the progress of our developers and help them reach their goals.

3. What obstacles are impeding your progress?

Answer: Finding free time for meetings that fit in everyone's schedule

**Team Member (4): Emanuel Vochitoiu:**

1. What did you accomplish yesterday?

Answer: Looked over and made sure developers are not falling behind

2. What will you do today?

Answer: Monitor the progress of our developers and help them reach their goals.

3. What obstacles are impeding your progress?

Answer: A big learning curve for all members.

**Team Member (5): Edwart Lanovici:**

1. What did you accomplish yesterday?

Answer: Vigorously tested all features to ensure errors do not disrupt the functionality of the application before deadline.

2. What will you do today?

Answer: Create mock tests that I can use when the application is more feature rich and notified developers of any errors that have occurred during testing.

3. What obstacles are impeding your progress?

Answer: Learning new testing methods
