

Daily Standup Meeting

Project Name: EatMeOut	Group Name: SEEPP Solutions
Sprint Number: 8	Date and Time: 28/03/2025 10:00am

List of attendance:

- Name: Przemek Wasinski Attended? YES
- Name: Samy Wanas Attended? YES
- Name: Alex-Petrisor Bejenaru Attended? YES
- Name: Emanuel Vochitoiu Attended? YES
- Name: Edwart Lanovici Attended? YES

Project Progress:

Team Member (1): Przemek Wasinski:

1. What did you accomplish yesterday?
Answer: Added functionality to let the restaurant update the status of orders and update them in the database
2. What will you do today?
Answer: Make order changes visible for users
3. What obstacles are impeding your progress?
Answer: Making sure user's device can handle the application even with a slow internet connection.

Team Member (2): Samy Wanas:

1. What did you accomplish yesterday?
Answer: Collaborated with Przemek Wasinski and Added functionality to let the restaurant update the status of orders and update them in the database
2. What will you do today?
Answer: Make order updates visible for users
3. What obstacles are impeding your progress?
Answer: Making the application perform well no matter how powerful the user's device is.

Team Member (3): Alex-Petrisor Bejenaru:

1. What did you accomplish yesterday?

Answer: Organised meeting time and informed all team members, adjusted meeting time to suit all team members.

2. What will you do today?

Answer: Monitor the progress of our developers and help them reach their goals.

3. What obstacles are impeding your progress?

Answer: Finding free time for meetings that fit in everyone's schedule

Team Member (4): Emanuel Vochitoiu:

1. What did you accomplish yesterday?

Answer: Looked over and made sure developers are not falling behind

2. What will you do today?

Answer: Monitor the progress of our developers and help them reach their goals.

3. What obstacles are impeding your progress?

Answer: A big learning curve for all members.

Team Member (5): Edwart Lanovici:

1. What did you accomplish yesterday?

Answer: Vigorously tested the home page features to ensure errors do not disrupt the functionality of the application

2. What will you do today?

Answer: Create mock tests that I can use when the application is more feature rich and notified developers of any errors that have occurred during testing.

3. What obstacles are impeding your progress?

Answer: Learning new testing methods
