Daily Standup Meeting

Project Name: EatMeOut	Group Name: SEEPP Solutions
Sprint Number: 2	Date and Time: 14/02/2025 9:30am

List of attendance:

- Name: Przemek Wasinski   Attended? YES
- Name: Samy Wanas   Attended? YES
- Name: Alex-Petrisor Bejenaru   Attended? YES
- Name: Emanuel Vochitoiu   Attended? YES
- Name: Edwart Lanovici   Attended? YES

Project Progress:

Team Member (1): Przemek Wasinski:

1. What did you accomplish yesterday?
   Answer: Created a frontend with registration and login for both users and restaurant owners with features such as image upload

2. What will you do today?
   Answer: Start on home page.

3. What obstacles are impeding your progress?
   Answer: Making sure user's device can handle the application even with a slow internet connection.

Team Member (2): Samy Wanas:

1. What did you accomplish yesterday?
   Answer: Created error catching statements that prevent the app from crashing when the user does an action such as inputting an invalid address.

2. What will you do today?
   Answer: Collaborate with Przemek Wasinski on creating a home page.

3. What obstacles are impeding your progress?
   Answer: Making the application perform well no matter how powerful the user's device is.

Team Member (3): Alex-Petrisor Bejenaru:

1. What did you accomplish yesterday?
   Answer: Organised meeting time and informed all team members, adjusted meeting time to suit all team members.

2. What will you do today?
   Answer: Monitor the progress of our developers and help them reach their goals.

3. What obstacles are impeding your progress?
   Answer: Finding free time for meetings that fit in everyone's schedule

Team Member (4): Emanuel Vochitoiu**:**

1. What did you accomplish yesterday?
   Answer: Looked over and made sure developers are not falling behind

2. What will you do today?
   Answer: Monitor the progress of our developers and help them reach their goals.

3. What obstacles are impeding your progress?
   Answer: A big learning curve for all members.

Team Member (5): Edwart Lanovici:

1. What did you accomplish yesterday?
   Answer: Vigorously tested login and register to make sure no erro

2. What will you do today?
   Answer: Create mock tests that I can use when the application is more feature rich.

3. What obstacles are impeding your progress?
   Answer: Learning new testing methods
